

Harry Reyes Nieva, MAS

Columbia University Irving Medical Center
Department of Biomedical Informatics
622 West 168th Street, PH20
New York, NY 10032

Email: hr2479@cumc.columbia.edu
Homepage: <http://www.harryreyesnieva.com>

Research Overview

My primary research area involves leveraging machine learning (ML) and natural language processing (NLP) to improve the quality, safety, and equity of health care and support knowledge discovery in medicine. Generally, my research interests concern developing and applying novel ML and NLP methods to examine and support clinical cognition and decision making; assess disease risk, presence, progression, and treatment; identify disease subtypes and biomarkers associated with important outcomes; and study the fairness, accountability, and transparency of intelligent systems in the health care setting. I am especially passionate about using and expanding the vast toolbox that statistical and computational learning offers to better understand and improve the health of underserved communities.

Education

Columbia University in the City of New York, New York, NY
Doctor of Philosophy in Biomedical Informatics, Expected May 2024
Advisor: Noémie Elhadad, PhD

Beijing Language and Culture University, Beijing, China
Summer Student, Intensive Mandarin, 2019

Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
Master of Applied Science in Spatial Analysis, 2019
Thesis: Spatiotemporal modeling of opioid prescribing and persistent opioid use, 2000-2018
Advisor: Frank C. Curriero, PhD

Harvard T.H. Chan School of Public Health, Boston, MA
Special Student, International and Population Health, 2009-2011

Yale University, New Haven, CT
Bachelor of Arts in Sociology and History, 2005

Teaching Experience

- | | |
|-------------|--|
| Summer 2021 | Instructor, Data Science Bootcamp, Biomedical Informatics Summer Research Program, Columbia University, New York, NY |
| Fall 2020 | Teaching Assistant, Acculturation to Medicine & Clinical Informatics, Columbia University, New York, NY |
| Summer 2017 | Teaching Fellow, Research with Large Databases, Harvard T.H. Chan School of Public Health, Boston, MA |

Summer 2016	Teaching Fellow, Research with Large Databases, Harvard T.H. Chan School of Public Health, Boston, MA
2005–2006	Teacher, English-as-a-Second-Language, New York City Board of Education/New York City Teaching Fellows, New York, NY
2000–2001	Reading Tutor (work study), America Reads, New Haven, CT

Research Experience

2019-present	National Library of Medicine Predoctoral Research Fellow, Department of Biomedical Informatics, Columbia University, New York, NY
2013-present	Visiting Postgraduate Research Fellow, Department of Medicine, Harvard Medical School, Boston, MA
2013-2019	Predoctoral Research Fellow, Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
2012-2019	Research Manager, Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
2012-2019	Network Manager, Brigham and Women's Primary Care Practice-Based Research Network, Boston, MA
2008-2011	Research Assistant (per diem), Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
2007-2008	Research Assistant (full-time), Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
2004	Research Assistant, Yale University, Department of Sociology, New Haven, CT

Committee Service

2020-present	Biomedical Informatics Seminar Series Planning Committee, Columbia University
2020-present	Member
2019-present	Electronic Health Record Phenotyping Working Group, Columbia University
2019-present	Member
2015-2018	Partners Sexual Orientation and Gender Identity Working Group
2015-2018	Founding Member
2015-2016	Brigham Health Equity and Diversity Council
2015-2016	Founding Member
2015-2016	Co-Chair, Data Working Group
2013-2015	Partners eCare Research Working Group
2013-2015	Member

2013–2015	Partners eCare Sexual Orientation and Gender Identity Working Group 2013–2015 Member
2013–2014	Member, Partners Human Research Committee, Insight Usability Working Group 2013–2014 Member
2013–2014	Member, Partners Enterprise Research Portal Working Group 2013–2014 Member
2011–2019	Member, Brigham Health LGBTQ and Allies Employee Resource Group 2011–2019 Member 2014–2016 Co-Chair
2007–2008	Association of Multicultural Members of Partners Healthcare 2007–2008 Member 2007–2008 Vice-Chair, Brigham and Women’s Hospital Chapter

Professional Organizations and Societies

2019–present	Member, New York Academy of Sciences
2017–present	Member, Association for Computing Machinery Special Interest Groups: Artificial Intelligence; Knowledge Discovery in Data; High Performance Computing; Bioinformatics, Computational Biology, and Biomedical Informatics
2014–present	Member, American Medical Informatics Association Special Interest Groups: Clinical Decision Support; Natural Language Processing; Knowledge Discovery and Data Mining; Ethics, Legal, and Social Issues 2014–present Abstract Reviewer, Annual Symposium 2019–present Mentor, AMIA High School Scholars Program
2012–2014	Member, American Public Health Association Special Interest Groups: Medical Care, Health Informatics Information Technology
2012–2014	Member, AcademyHealth

Editorial Activities

Ad hoc Reviewer

Health Services Research

JAMA Network Open

Journal of General Internal Medicine

Medical Care

Honors

2019–present	National Library of Medicine Predoctoral Research Fellowship, Training in Biomedical Informatics at Columbia University (T15LM007079-28)
2019	Dean’s Fellowship, Columbia University Vagelos College of Physicians and Surgeons
2018	Ford Foundation Predoctoral Fellowship Honorable Mention, National Academies of Sciences, Engineering, and Medicine
2018	Partners in Excellence Award for Leadership and Innovation, Partners HealthCare
2018	Ruth and William Silen, MD Award, New England Science Symposium
2016–2018	Merit Scholarship, Johns Hopkins Bloomberg School of Public Health
2016	LGBTQ Leadership Award, Brigham Health
2015	Brigham Way honoree, Brigham and Women’s Hospital
2015	Practice-Based Research Network Conference Travel Scholarship, North American Primary Care Research Group
2014	Partners in Excellence Award for Quality Treatment and Service, Partners HealthCare
2014	Outstanding Quality and Patient Safety Oral Presentation Award, Society of General Internal Medicine
2012	Partners in Excellence Award for Leadership and Innovation, Partners HealthCare
2004	Mellon Forum Undergraduate Thesis Research Award, Yale University
2002	Y50K Business Plan Competition, Second Place (Social Enterprise), Yale Entrepreneurship Society

Report of Funded and Unfunded Projects

Funding Information

Past

2018–2019	<p>A Multicenter Randomized Controlled Trial of Pharmacist-Directed Transitional Care to Reduce Post-Hospitalization Utilization</p> <p>National Institute on Aging (NIA) R01 AG 058911-01</p> <p>Project Manager (Site PI: Schnipper)</p> <p>Aim: To measure the impact of pharmacist-led discharge (PHARM-DC) interventions on post-discharge utilization within 30 days. We will also identify patient sub-populations most likely to benefit from PHARM-DC.</p>
-----------	---

- 2017–2018 Novel electronic health record phenotyping of LGBTQ intersectional identities and associated health disparities using natural language processing and machine learning
Harvard Catalyst
Co-Investigator (PI: Zhou)
Aim: To examine documentation of sexual orientation and gender identity (SOGI) in the electronic health record (EHR) and characterize LGBTQ health and potential health inequities.
- 2016–2018 Electronic Medication Adherence Reporting and Feedback During Care Transitions
Agency for Healthcare Research and Quality (AHRQ) R21 HS 024587-01
Project Manager/Statistical Programmer (PI: Schnipper)
Aim: To implement a smart pillbox intervention for patients discharged from the hospital to the community and to evaluate the effects of the intervention on post-discharge medication discrepancies, medication adherence, and chronic disease management.
- 2015–2018 Implementation of a Medication Reconciliation Protocol to Improve Patient Safety
Agency for Healthcare Research and Quality (AHRQ) R18 HS 023757-01A1
Project Manager/Statistical Programmer (PI: Schnipper)
Aim: The long-term objective of this research is to widely disseminate, implement, and evaluate sustainable medication reconciliation interventions that improve patient safety during care transitions.
- 2015–2017 Clinician-Patient Relationships: Boundaries, Barriers, Breakdowns
Gold Foundation/Lucian Leape Family Foundation
Project Director (PI: Schiff)
Aim: This study examines physician attitudes and practices related to caring acts that have been questioned as “inappropriate” or “unethical” crossing of professional-patient boundaries.
- 2014–2016 Understanding and Preventing Diagnostic Pitfalls
Risk Management Foundations of the Harvard Medical Institutions (CRICO)
Project Director (PI: Schiff)
Aim: The goal of this project is to identify leading diagnostic pitfalls that pose safety and malpractice risks, then design and test the accuracy of electronic screens for these pitfalls in the electronic health record.
- 2014–2016 Evaluating Variation in Overactive Bladder Medication Use and Other Treatment Options
Astellas Pharma US, Inc.
Statistical Programmer (PI: Loughlin)
Aim: To understand variation in overactive bladder treatment, medication adherence, and outcomes.
- 2014–2015 Are Physicians and Patients Adhering to the Published Guidelines for Fasting during Ramadan?
Martin P. Solomon Award for Primary Care Scholarship, BWH
Co-Investigator (PI: Ali)
Aim: To measure differences in rates of health care utilization for Muslim patients just prior to, during, and after Ramadan.
- 2014 BWH DGIM Research Day
BRI/ORC Microgrant Pilot Program
Principal Investigator (\$1,000)
Aim: To develop the first annual Division-wide retreat for showcasing contributions and promoting career development of research assistants in the BWH Division of General Internal Medicine and Primary Care.

- 2013–2015 Patient Outcomes Associated with Year-End Departure of Resident Primary Care Physicians
Support for Excellence in Educational Development (SEED) Grant, BWH
Co-Investigator (PI: Solomon)
Aim: To investigate whether acute care utilization is increased disproportionately among patients of graduating resident physicians compared to non-graduating residents.
- 2013–2014 Acute Respiratory Infection Telephone Management Service
Brigham and Women's Physicians Organization Care Redesign Incubator and Startup Program – Round 1 and Round 2
Data Manager (PI: Linder)
Aim: To develop, implement, and evaluate an acute respiratory infection telephone management service at one of the Brigham and Women's Primary Care Practices.
- 2012–2014 Medical Malpractice and Patient Safety Protocol
Agency for Healthcare Research and Quality (AHRQ) 1R18HS019508-01
Project Manager (PI: Schiff)
Aim: To test the impact of quality improvement techniques to accomplish innovations and improvements in 3 high risk ambulatory malpractice areas: 1) medication management, 2) test ordering and results management 3) follow-up and referral management.
- 2012–2014 Use of Behavioral Economics to Improve Treatment of Acute Respiratory Infections
National Institutes of Health/University of Southern California 1RC4AG039115-01
Data Manager/Statistical Programmer (Site PI: Linder)
Aim: To evaluate the use of behavioral economic concepts such as enhanced defaults, alternative options, and social norms on inappropriate antibiotic prescribing for acute respiratory infections.
- 2010–2012 President's Emergency Plan for AIDS Relief (PEPFAR)
Health Resources and Services Administration (HRSA) U51HA02522
Data Quality Assurance Manager (PI: Kanki)
A \$362 million grant for work in Nigeria, Botswana, and Tanzania to train health care workers, develop monitoring and evaluation systems, strengthen health care infrastructures, and collaborate with local hospitals and clinics that provide treatment for patients living with HIV/AIDS.
- 2008–2010 President's Emergency Plan for AIDS Relief (PEPFAR)
Health Resources and Services Administration (HRSA) U51HA02522
Data, Training, and Education Coordinator (PI: Kanki)
A \$362 million grant for work in Nigeria, Botswana, and Tanzania to train health care workers, develop monitoring and evaluation systems, strengthen health care infrastructures, and collaborate with local hospitals and clinics that provide treatment for patients living with HIV/AIDS.
- 2007–2008 Pharmacist Intervention to Decrease Medication Errors in Heart Disease Patients (The PILL-CVD Study)
National Heart, Lung, and Blood Institute (NHLBI), R01HL089755
Research Assistant (Site PI: Schnipper)
Aim: To evaluate a literacy-focused program that provides educational assistance from pharmacists at the time of hospital discharge to people hospitalized with heart problems.

- 2007 Influenza in the Partners Primary Care Practice-Based Research Network
 Roche Laboratories, RLI 06001207
 Research Assistant (PI: Linder)
 Aim: To measure and evaluate antiviral and antibiotic prescribing for patients with influenza being treated in primary care clinics.

Projects Submitted for Funding

- 2018 ARTificial Intelligence for the Study and Enhancement of Sexual and Gender Minority health (ARISE-SGM)
 NIH/NIMHD 1R21HD097292-01
 Co-investigator (PI: Zhou) – Direct Costs Requested – \$275,000
 The goals of the ARISE-SGM (ARTificial Intelligence for the Study and Enhancement of Sexual and Gender Minority health) research project are to leverage advances in artificial intelligence to address logistical challenges in obtaining representative samples of sexual and gender minority (SGM) populations and characterize comorbidity prevalence and potential health inequities associated with different segments of SGM populations. Original SRG Action: Impact Score:38 Percentile:24+

Unfunded Current Projects

- 2020 *CovidWatcher*
 PIs: Noémie Elhadad, PhD; Lena Mamykina, MS, PhD; Nicholas Tatonetti, PhD
 CovidWatcher is an app and online portal that surveys users about their exposure to the new coronavirus (COVID-19), symptoms, access to medical care, and impact on daily life. The data collected is used to track the spread of coronavirus, giving citizens real-time information about hot spots and enabling health care officials to deploy resources where needed most.
- 2020 *Mechanistic Machine Learning*
 PI: Lena Mamykina, MS, PhD
 The overarching goal of this research is to develop new approaches to facilitate clinical reasoning and decision-making by aligning clinicians' cognitive models of patients' pathophysiology, mechanistic models of human physiology, and empirical patient data. Reconciling differences between cognitive and mechanistic models requires deep understanding of medical cognition and clinical work, novel computational modeling, and innovative co-design approaches that bring together cognitive scientists, data scientists, and experts in human-computer interaction and clinical decision support.
- 2019 *Gender-based differences in presentation and treatment of acute myocardial infarction*
 Advisor: Noemie Elhadad, PhD
 We aim to measure and characterize differences in presentation and treatment of acute myocardial infarction (AMI) using structured electronic health record data and free-text from clinical notes. We are using empirical distributional semantics methods (e.g., word2vec and GloVe) to identify potential biases and empirical associations based on demographics. We are also analyzing clinical notes over time prior to and after initial diagnosis to understand differences in the trajectories of sign or symptom documentation for patients, lengths of time to treatment, and resulting impact on patient outcomes.

2019 *Recognizing and Normalizing Condition Concepts with Severity Modifiers*

Advisor: Chunhua Weng, PhD

The presence of qualifiers such as severity or disease stage complicate the recognition and normalization of biomedical concepts from free text. A single concept can often be mapped to a terminology in multiple ways. Our problem is motivated by inconsistent recognition of disease conditions in Criteria2Query (C2Q), a tool for exploring clinical trial inclusion and exclusion criteria. We are developing a novel two-step, ontology-aware mapping scheme optimized for extracting disease concepts at a high level of specificity.

Report of Clinical Activities and Innovations

Clinical Innovations

2011 Electronic health record (EHR) data quality assessment tool, version 2.0 at 33 Harvard PEPFAR sites in Nigeria

Instituted major modifications to and evaluated a pre-existing EHR utility to incorporate expanded data quality indicators. With this utility, central and site-level data managers are able to better monitor and improve data completeness, validity, accuracy, and currency.

2011 EHR pediatric quality improvement tool at 33 Harvard PEPFAR sites in Nigeria

Co-developed and evaluated a utility to extract information from data warehouse and generate measures based on 23 pediatric quality of care indicators. Programmed module to review continuity of care, drug therapy initiation, medication adherence, loss to follow-up, laboratory monitoring, disease screening based on clinical symptoms assessment or diagnostic evaluation, treatment failure, toxicity management, nutritional assessment, and treatment response.

2010 EHR adult quality improvement tool at 33 Harvard PEPFAR sites in Nigeria

Co-developed and evaluated a utility to extract information from data warehouse and generate measures based on 15 adult quality of care indicators. Module reviews continuity of care, drug therapy initiation, loss to follow-up, laboratory monitoring, disease screening based on clinical symptoms assessment, treatment failure, and treatment response.

- 2009 Improving Understanding and Medication Adherence with Flipcharts/Podium Presentation
HIV Counselor Training, AIDS Prevention Initiative Nigeria (APIN), Abuja, Nigeria

Report of Education of Patients and Service to the Community Activities

- 2020-present Columbia DBMI Summer Research Program/Co-organizer
Develop and implement summer program that aims to promote biomedical informatics and health data science as a career choice for rising high school seniors and college undergraduates. Serve as an instructor during an intensive data science bootcamp for summer students.
- 2018 Queer Health Hackathon/Co-organizer
Organized 3-day collaborative data analysis event to convene software engineers, data scientists, and clinical experts to examine EHR data for potential LGBTQ health disparities. Extracted and transformed/de-identified EHR data from health system enterprise data warehouse; loaded on Amazon Web Services Cloud platform.
- 2013-2016 Human Rights Commission, City of Cambridge/Vice Chair, Commissioner
Adjudicated complaints of discrimination occurring in Cambridge, Massachusetts related to housing, employment, education, and public accommodation. Facilitated conciliations to settle disputes among parties. Conducted information sessions on civil rights throughout Cambridge.
- 2006-2009 Boston Medical Reserve Corps/Emergency Medical Technician
The Boston Medical Reserve Corps is a group of volunteers who are ready to respond should there be a public health emergency in Boston.
- 2007 Timmy Global Health, Dominican Republic/Medical Relief Volunteer
Helped establish temporary medical clinics along Haiti-Dominican Republic border; triaged patients, managed pharmacy, translated proper drug use and application.
- 2001-2005 Latino Youth Enrichment Team (LYET), New Haven, CT/Co-Director
Managed community center mentorship program and developed instructional methods for Latino youth ranging in age from 6 through 13.

Abstracts, Poster Presentations and Exhibits Presented at Professional Meetings

Works resulting in publication are not included below.

Regional

1. **Reyes Nieva H**, Blackley S, Streed C, Fiskio J, Zhou L. High physician and clinic-level variation in documentation of sexual orientation and gender identity in the electronic health record. Plenary presentation. New England Science Symposium, Boston, MA; 4/2018.
Received a Ruth and William Silen, MD Oral Presentation Award
2. Singer S, **Reyes Nieva H**, Ling J, Leydon N, Weissman J, Griswold P, Yoon C, Bates, DW, Biondolillo M, Schiff GD. Risks for Making Promises: Increased Expectations but Limited Improvement with a Malpractice Safety Intervention. Poster presentation. Society of General Internal Medicine New England Regional Meeting. Boston, MA; 03/2015.

National

1. Pang C, **Reyes Nieva H**, Chen R, Kalluri KS, Sun TY, Jiang X, Rodriguez VA, Natarajan K. Characterization and Comparison of Embedding Algorithms for Phenotyping across a Network of Observational Databases. Podium Presentation. American Medical Informatics Association Annual Symposium. Virtual Event; 11/2020.
2. **Reyes Nieva H**, Sun T, Gorman SR, Mao G, Elhadad N. Delays in care and differential presentation of acute myocardial infarction. Oral presentation. National Library of Medicine Informatics Training Conference. Virtual Event; 06/2020.
3. **Reyes Nieva H**, Ruan E, Volodarskaya M, Wright A, Lim A, Singh H, Agarwal S, Schiff GD. Diagnostic Pitfalls: Operationalizing a New Paradigm to Understand and Prevent Diagnostic Errors. Poster presentation. Society of General Internal Medicine Annual Meeting. Washington, DC; 05/2019.
4. Schnipper JL, **Reyes Nieva H**, Mallouk M, Mixon AS, Rennke S, Chu E, Mueller S, Smith GR, Williams M, Wetterneck TB, Stein J, Dalal A, Labonville SA, Sridharan A, Orav EJ, Levin B, Yoon C, Gresham M, Goldstein J, Kripilani S. Effects of a Refined Evidence-based Toolkit on Medication Reconciliation Quality and Safety at Multiple Hospitals: Results of the MARQUIS2 Study. Plenary presentation. Hospital Medicine 2019. National Harbor, MD; 03/2019.
5. Groisser A, **Reyes Nieva H**, Wright A, Ruan E, Schiff GD. Don't Come Back: Patient Terminations in Primary Care. Poster presentation. Society of General Internal Medicine Annual Meeting; 04/2018.
6. Schnipper JL, Cruz Garcia J, **Reyes Nieva H**, Chabria A, Shannon EM, Czado K, Jain R, Cerciello E, Ganesan E, Dave J. Barriers and Facilitators to Implementing an Electronic Pillbox Intervention During Care Transitions. Poster presentation. Hospital Medicine 2018. Orlando, FL; 04/2018.
7. Mlaver E, Dalal AK, **Reyes Nieva H**, Chang F, Hanna J, Ravindran S, McNally K, Stade D, Morrison C, Bates D, Dykes P. An Analysis of Patient Portal Use in the Acute Care Setting. Oral Presentation. American Medical Informatics Association Annual Meeting. San Francisco, CA; 11/2015.
8. **Reyes Nieva H**, Palm K, Zucconi T. Advocacy and Implementation: Gathering SOGI Demographics in the Clinical Setting. Oral presentation. GLMA 33rd Annual Conference. Portland, OR; 9/2015.
9. Kroll DS, **Reyes Nieva H**, Barsky A, Linder JA. Benzodiazepines and Primary Care. Poster presentation. Academy of Psychosomatic Medicine, 61st Annual Meeting; 11/2014.

10. **Reyes Nieva H**, Doctor JN, Friedberg MW, Birks C, Fiskio JM, Volk LA, Linder JA. Comparing Clinicians' Perception of Their Own and Their Peers' Antibiotic Prescribing to Actual Antibiotic Prescribing for Acute Respiratory Infections in Primary Care. Oral presentation. Society of General Internal Medicine Annual Meeting, San Diego, CA; 4/2014.
Received the Outstanding Quality and Patient Safety Oral Presentation Award
11. Dempsey P, **Reyes Nieva H**, Businger A, Linder JA. Accuracy and Gaming of the Acute Bronchitis Antibiotic Prescribing Performance Measure. Poster presentation. Society of General Internal Medicine Annual Meeting. San Diego, CA; 04/2014.
12. Brede N, Singer S, **Reyes Nieva H**, Ling J, Leydon N, Colling CA, Satterstrom P, Yoon C, Orav EJ, Weissman JS, Goldmann D, Biondolillo M, Schiff GD. Patients Have Something to Say: Analysis of 514 Patient Safety and Quality Comments from the PROMISES Patient Survey. Oral presentation. Society of General Internal Medicine Annual Meeting; 04/2013.
13. Schiff GD, Brede N, Singer S, Foskett CA, **Reyes Nieva H**, Colling CA, Whitney DL, Ling J, Leydon N, Orav EJ, Bates DW, Biondolillo M. Courting Malpractice Risk: Failures in High Risk Outpatient Test and Referral Management and Documentation. Poster presentation. Society of General Internal Medicine Annual Meeting; 04/2013.

International

1. Sun TY, Bear Don't Walk OJ IV, **Reyes Nieva H**, Chen J, Elhadad N. Exploring Gender Disparities in Time to Diagnosis. Poster presentation. Machine Learning for Health (ML4Health) Workshop at the Conference on Neural Information Processing Systems (NeurIPS). Virtual Event; 12/2020.
2. **Reyes Nieva H**, Volodarskaya M, Wright A, Singh H, Ruan E, Schiff GD. Diagnostic Pitfalls: A New Approach to Understand and Prevent Diagnostic Error. Poster presentation. Society to Improve Diagnosis in Medicine 9th International Conference. Hollywood, CA; 11/2016.
3. **Reyes Nieva H**, Linder JA. Gathering Sexual Orientation and Gender Identity Demographics in the Clinical Setting. Oral Presentation. North American Primary Care Research Group Practice-Based Research Network Conference, Bethesda, MD; 7/2015.
4. **Reyes Nieva H**, Linder JA. PBRN Organization and Governance to Promote Practice, Clinician, Researcher, and Patient Engagement. Workshop. North American Primary Care Research Group Practice-Based Research Network Conference, Bethesda, MD; 07/2014.
5. Singer S, **Reyes Nieva H**, Brede N, Colling CA, Ling J, Leydon N, Weissman JS, Goldmann D, Griswold P, Yoon C, Orav EJ, Bates DW, Biondolillo M, Schiff GD. Malpractice Risk in Ambulatory Practices: Evaluation by Staff and Administrators in the PROMISES Study. Oral presentation. Israel National Institute for Health Policy Research, 5th International Jerusalem Conference for Health Policy; 06/2013.

Computer and Language Skills

Computing Python, bash, SQL, R, SAS, L^AT_EX, HTML, CSS, Javascript, ArcGIS, QGIS, SaTScan, REDCap, MS Access, FileMaker, git

Languages English (native), Spanish (proficient), Mandarin (beginner)

Other Experience

- 2010-2012 Data Quality Assurance Manager, Harvard/US President's Emergency Plan for AIDS Relief (PEPFAR), Boston, MA
- 2008-2010 Data, Training, and Education Coordinator, Harvard/US President's Emergency Plan for AIDS Relief (PEPFAR), Boston, MA
- 2006-2007 Emergency Medical Technician, Tufts Emergency Medical Services, Medford, MA
- 2004-2005 Client Outreach Officer, Advanced Strategies for Healthcare Access, New Haven, CT
- 2003-2004 Editorial Assistant/Contributor, Yale Medicine Magazine, New Haven, CT
- 2003 Paralegal, Raymond B. Schwartzberg & Associates, New York, NY
- 2001-2002 Client Advocate, Student Health Outreach (SHOut), New Haven, CT, 2001-2002
- 2000-2001 Library Clerk, Yale University, Sterling Memorial Library
- 2000-2001 Program Assistant, Yale University, International Affairs Council, New Haven, CT
