

Harry Reyes Nieva, MAS

Columbia University Irving Medical Center
Department of Biomedical Informatics
622 West 168th Street, PH20
New York, NY 10032

Email: hr2479@cumc.columbia.edu
Homepage: <http://www.harryreyesnieva.com>

Research Overview

My primary research area involves leveraging artificial intelligence to promote health equity, improve the quality and safety of patient care, and support knowledge discovery. Generally, my research interests concern developing and applying novel machine learning and natural language processing methods to assess disease risk, presence, progression and treatment response; identifying disease subtypes and biomarkers associated with important outcomes; and studying the fairness, accountability, and transparency of intelligent systems in the health care setting.

Education

Columbia University in the City of New York
Doctor of Philosophy in Biomedical Informatics, Expected May 2024

Beijing Language and Culture University
Summer Student, Intensive Mandarin, 2019

Johns Hopkins Bloomberg School of Public Health
Master of Applied Science in Spatial Analysis, 2019
Thesis: Spatiotemporal modeling of opioid prescribing and persistent opioid use, 2000-2018

Harvard T.H. Chan School of Public Health
Special Student, International and Population Health, 2009-2011

Yale University
Bachelor of Arts in Sociology and History, 2005
Thesis: The IDA road to homeownership: asset-based development approaches to poverty alleviation

Research Experience

- 2019-present National Library of Medicine Predoctoral Research Fellow, Department of Biomedical Informatics, Columbia University, New York, NY
- 2013-present Visiting Postgraduate Research Fellow, Department of Medicine, Harvard Medical School, Boston, MA
- 2013-2019 Predoctoral Research Fellow, Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
- 2012-2019 Research Manager, Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA

- 2008-2011 Research Assistant (per diem), Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
- 2007-2008 Research Assistant (full-time), Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital, Boston, MA
- 2004 Research Assistant, Yale University, Department of Sociology, New Haven, CT

Teaching Experience

- Summer 2017 Teaching Fellow, HPM299 Research with Large Databases, Harvard T.H. Chan School of Public Health, Boston, MA
- Summer 2016 Teaching Fellow, HPM299 Research with Large Databases, Harvard T.H. Chan School of Public Health, Boston, MA
- 2005-2006 Teaching Fellow, English-as-a-Second-Language, New York City Board of Education, New York, NY

Committee Service

- 2019-present Electronic Health Record Phenotyping Working Group, Columbia University
2019-present Member
- 2015-2018 Partners Sexual Orientation and Gender Identity Working Group
2015-2018 Founding Member
- 2015-2016 Brigham Health Equity and Diversity Council
2015-2016 Founding Member
2015-2016 Co-Chair, Data Working Group
- 2013-2015 Partners eCare Research Working Group
2013-2015 Member
- 2013-2015 Partners eCare Sexual Orientation and Gender Identity Working Group
2013-2015 Member
- 2013-2014 Member, Partners Human Research Committee, Insight Usability Working Group
2013-2014 Member
- 2013-2014 Member, Partners Enterprise Research Portal Working Group
2013-2014 Member
- 2011-2019 Member, Brigham Health LGBTQ and Allies Employee Resource Group
2011-2019 Member
2014-2016 Co-Chair

2007–2008 Association of Multicultural Members of Partners Healthcare
 2007–2008 Member
 2007–2008 Vice-Chair, Brigham and Women’s Hospital Chapter

Professional Organizations and Societies

2019–present Member, New York Academy of Sciences

2017–present Member, Association for Computing Machinery
 Special Interest Groups: Artificial Intelligence; Knowledge Discovery in Data;
 Bioinformatics, Computational Biology, and Biomedical Informatics

2014–present Member, American Medical Informatics Association
 2014–present Abstract Reviewer, Annual Symposium
 Special Interest Groups: Clinical Decision Support, Natural Language Processing,
 Clinical Research Informatics, Knowledge Discovery and Data Mining

2012–2014 Member, American Public Health Association
 Special Interest Groups: Medical Care, Health Informatics Information Technology

2012–2014 Member, AcademyHealth

Editorial Activities

Ad hoc Reviewer

Health Services Research

Journal of General Internal Medicine

Medical Care

Honors

2019–present National Library of Medicine Predoctoral Research Fellowship, Training in Biomedical Informatics at Columbia University (T15LM007079-28)

2019 Dean’s Diversity Fellowship, Columbia University Vagelos College of Physicians and Surgeons

2018 Ford Foundation Predoctoral Fellowship Honorable Mention, National Academies of Sciences, Engineering, and Medicine

2018 Partners in Excellence Award for Leadership and Innovation, Partners HealthCare

2018 Ruth and William Silen, MD Award, Third Place, New England Science Symposium

- 2016-2018 Merit Scholarship, Johns Hopkins Bloomberg School of Public Health
- 2016 LGBTQ Leadership Award, Brigham Health
- 2015 Brigham Way honoree, Brigham and Women's Hospital
- 2015 Practice-Based Research Network Conference Travel Scholarship, North American Primary Care Research Group
- 2014 Partners in Excellence Award for Quality Treatment and Service, Partners HealthCare
- 2014 Outstanding Quality and Patient Safety Oral Presentation Award, Society of General Internal Medicine
- 2012 Partners in Excellence Award for Leadership and Innovation, Partners HealthCare
- 2004 Mellon Forum Undergraduate Thesis Research Funding Award, Yale University
- 2002 Y50K Business Plan Competition, Second Place (Social Enterprise), Yale Entrepreneurship Society

Report of Funded and Unfunded Projects

Funding Information

Past

- 2018-2019 A Multicenter Randomized Controlled Trial of Pharmacist-Directed Transitional Care to Reduce Post-Hospitalization Utilization
National Institute on Aging (NIA) R01 AG 058911-01
Project Manager (Site PI: Schnipper)
Aim: To measure the impact of pharmacist-led discharge (PHARM-DC) interventions on post-discharge utilization within 30 days. We will also identify patient sub-populations most likely to benefit from PHARM-DC.
- 2017-2018 Novel electronic health record phenotyping of LGBTQ intersectional identities and associated health disparities using natural language processing and machine learning
Harvard Catalyst
Co-Investigator (PI: Zhou)
Aim: To examine documentation of sexual orientation and gender identity (SOGI) in the electronic health record (EHR) and characterize LGBTQ health and potential health inequities.
- 2016-2018 Electronic Medication Adherence Reporting and Feedback During Care Transitions
Agency for Healthcare Research and Quality (AHRQ) R21 HS 024587-01
Project Manager/Statistical Programmer (PI: Schnipper)
Aim: To implement a smart pillbox intervention for patients discharged from the hospital to the community and to evaluate the effects of the intervention on post-discharge medication discrepancies, medication adherence, and chronic disease management.

- 2015–2018 Implementation of a Medication Reconciliation Protocol to Improve Patient Safety
Agency for Healthcare Research and Quality (AHRQ) R18 HS 023757-01A1
Project Manager/Statistical Programmer (PI: Schnipper)
Aim: The long-term objective of this research is to widely disseminate, implement, and evaluate sustainable medication reconciliation interventions that improve patient safety during care transitions.
- 2015–2017 Clinician-Patient Relationships: Boundaries, Barriers, Breakdowns
Gold Foundation/Lucian Leape Family Foundation
Project Director (PI: Schiff)
Aim: This study examines physician attitudes and practices related to caring acts that have been questioned as “inappropriate” or “unethical” crossing of professional-patient boundaries.
- 2014–2016 Understanding and Preventing Diagnostic Pitfalls
Risk Management Foundations of the Harvard Medical Institutions (CRICO)
Project Director (PI: Schiff)
Aim: The goal of this project is to identify leading diagnostic pitfalls that pose safety and malpractice risks, then design and test the accuracy of electronic screens for these pitfalls in the electronic health record.
- 2014–2016 Evaluating Variation in Overactive Bladder Medication Use and Other Treatment Options
Astellas Pharma US, Inc.
Statistical Programmer (PI: Loughlin)
Aim: To understand variation in overactive bladder treatment, medication adherence, and outcomes.
- 2014–2015 Are Physicians and Patients Adhering to the Published Guidelines for Fasting during Ramadan?
Martin P. Solomon Award for Primary Care Scholarship, BWH
Co-Investigator (PI: Ali)
Aim: To measure differences in rates of health care utilization for Muslim patients just prior to, during, and after Ramadan.
- 2014 BWH DGIM Research Day
BRI/ORC Microgrant Pilot Program
Principal Investigator (\$1,000)
Aim: To develop the first annual Division-wide retreat for showcasing contributions and promoting career development of research assistants in the BWH Division of General Internal Medicine and Primary Care.
- 2013–2015 Patient Outcomes Associated with Year-End Departure of Resident Primary Care Physicians
Support for Excellence in Educational Development (SEED) Grant, BWH
Co-Investigator/Statistical Programmer (PI: Solomon)
Aim: To investigate whether acute care utilization is increased disproportionately among patients of graduating resident physicians compared to non-graduating residents.
- 2013–2014 Acute Respiratory Infection Telephone Management Service
Brigham and Women’s Physicians Organization Care Redesign Incubator and Startup Program – Round 1 and Round 2
Data Manager (PI: Linder)
Aim: To develop, implement, and evaluate an acute respiratory infection telephone management service at one of the Brigham and Women’s Primary Care Practices.

- 2012–2014 Medical Malpractice and Patient Safety Protocol
Agency for Healthcare Research and Quality (AHRQ) 1R18HS019508-01
Project Manager (PI: Schiff)
Aim: To test the impact of quality improvement techniques to accomplish innovations and improvements in 3 high risk ambulatory malpractice areas: 1) medication management, 2) test ordering and results management 3) follow-up and referral management.
- 2012–2014 Use of Behavioral Economics to Improve Treatment of Acute Respiratory Infections
National Institutes of Health/University of Southern California 1RC4AG039115-01
Data Manager/Statistical Programmer (Site PI: Linder)
Aim: To evaluate the use of behavioral economic concepts such as enhanced defaults, alternative options, and social norms on inappropriate antibiotic prescribing for acute respiratory infections.
- 2010–2012 President's Emergency Plan for AIDS Relief (PEPFAR)
Health Resources and Services Administration (HRSA) U51HA02522
Data Quality Assurance Manager (PI: Kanki)
A \$362 million grant for work in Nigeria, Botswana, and Tanzania to train health care workers, develop monitoring and evaluation systems, strengthen health care infrastructures, and collaborate with local hospitals and clinics that provide treatment for patients living with HIV/AIDS.
- 2008–2010 President's Emergency Plan for AIDS Relief (PEPFAR)
Health Resources and Services Administration (HRSA) U51HA02522
Data, Training, and Education Coordinator (PI: Kanki)
A \$362 million grant for work in Nigeria, Botswana, and Tanzania to train health care workers, develop monitoring and evaluation systems, strengthen health care infrastructures, and collaborate with local hospitals and clinics that provide treatment for patients living with HIV/AIDS.
- 2007–2008 Pharmacist Intervention to Decrease Medication Errors in Heart Disease Patients (The PILL-CVD Study)
National Heart, Lung, and Blood Institute (NHLBI), R01HL089755
Research Assistant (Site PI: Schnipper)
Aim: To evaluate a literacy-focused program that provides educational assistance from pharmacists at the time of hospital discharge to people hospitalized with heart problems.
- 2007 Influenza in the Partners Primary Care Practice-Based Research Network
Roche Laboratories, RLI 06001207
Research Assistant (PI: Linder)
Aim: To measure and evaluate antiviral and antibiotic prescribing for patients with influenza being treated in primary care clinics.

Projects Submitted for Funding

- 2018 Artificial Intelligence for the Study and Enhancement of Sexual and Gender Minority health (ARISE-SGM)
NIH/NIMHD 1R21HD097292-01
Co-investigator (PI: Zhou) – Direct Costs Requested – \$275,000
The goals of the ARISE-SGM (Artificial Intelligence for the Study and Enhancement of Sexual and Gender Minority health) research project are to leverage advances in artificial intelligence to address logistical challenges in obtaining representative samples of sexual and gender minority (SGM) populations and characterize comorbidity prevalence and potential health inequities associated with different segments of SGM populations. Original SRG Action: Impact Score:38 Percentile:24+

Unfunded Current Projects

- 2019 *Gender-based differences in presentation and treatment of acute myocardial infarction*
Advisor: Noemie Elhadad, PhD
We aim to measure and characterize differences in acute myocardial infarction (AMI) among men and women using structured electronic health record data and free-text from clinical notes. We are using empirical distributional semantics methods (e.g., word2vec and GloVe) to identify potential biases and empirical associations based on gender. We are also analyzing clinical notes over time prior to and after initial diagnosis to understand differences in the trajectories of sign or symptom documentation for patients.

Report of Clinical Activities and Innovations

Clinical Innovations

- 2011 Electronic health record (EHR) data quality assessment tool, version 2.0 at 33 Harvard PEPFAR sites in Nigeria
Instituted major modifications to and evaluated a pre-existing EHR utility to incorporate expanded data quality indicators. With this utility, central and site-level data managers are able to better monitor and improve data completeness, validity, accuracy, and currency.
- 2011 EHR pediatric quality improvement tool at 33 Harvard PEPFAR sites in Nigeria
Co-developed and evaluated a utility to extract information from data warehouse and generate measures based on 23 pediatric quality of care indicators. Programmed module to review continuity of care, drug therapy initiation, medication adherence, loss to follow-up, laboratory monitoring, disease screening based on clinical symptoms assessment or diagnostic evaluation, treatment failure, toxicity management, nutritional assessment, and treatment response.
- 2010 EHR adult quality improvement tool at 33 Harvard PEPFAR sites in Nigeria
Co-developed and evaluated a utility to extract information from data warehouse and generate measures based on 15 adult quality of care indicators. Module reviews continuity of care, drug therapy initiation, loss to follow-up, laboratory monitoring, disease screening based on clinical symptoms assessment, treatment failure, and treatment response.

Report of Invited Teaching and Presentations

No presentations below were sponsored by outside entities.

Local

- 2019 Diversity, Culture, and Inclusion Series - LGBTQ Health
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2018 Documentation of Sexual Orientation and Gender Identity in the Electronic Health Record
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2017 Algorithmic Bias and Health Disparities
Machine Learning Working Group, Partners HealthCare
- 2017 Improving and Leveraging Sexual Orientation and Gender Identity Demographics in Epic
Sexual Orientation and Gender Identity Working Group, Partners HealthCare
- 2014 Designing and Building Clinical Research Databases
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2014 Data Management and Manipulation using Microsoft Access
Division of General Internal Medicine and Primary Care, BWH
- 2014 The LGBTQ Data Collection Gap: Sexual Orientation and Gender Identity in the EHR
LGBTQ and Allies Employee Resource Group, Brigham Health
- 2013 How Busy Clinicians Can Improve Care and Pursue Scholarship/Faculty Retreat
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital

Regional

- 2016 Identifying and Understanding Malpractice-Prone Diagnostic Pitfalls.
Risk Management Foundation of the Harvard Medical Institutions Incorporated (RMF), CRICO
Research Day. Boston, MA

International

- 2011 Introduction to Data Management/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2011 Critical Elements in Database Cleaning, a Checklist /Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2011 Basics of Programming and Scripting/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2011 Monitoring data and trouble-shooting/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria

- 2011 Programming: Creating a Utility and Basics of Scripting/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2011 Programming and Trouble-shooting databases/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2011 Cohort Analyses I: Using EHR Data/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2011 Cohort Analyses II: Using EHR Data/Seminar
AIDS Prevention Initiative Nigeria Plus (APIN Plus), Abuja, Nigeria
- 2009 Improving Understanding and Medication Adherence with Flipcharts/Podium Presentation
HIV Counselor Training, AIDS Prevention Initiative Nigeria (APIN), Abuja, Nigeria

Report of Education of Patients and Service to the Community Activities

- 2018 Queer Health Hackathon/Co-organizer, Data Manager
Co-organized 3-day collaborative data analysis event to convene software engineers, data scientists, and clinical experts to examine EHR data for potential LGBTQ health disparities. Extracted and transformed/de-identified EHR data from health system enterprise data warehouse; loaded on Amazon Web Services Cloud platform.
- 2013-2016 Human Rights Commission, City of Cambridge/Vice Chair, Commissioner
Adjudicated complaints of discrimination occurring in Cambridge, Massachusetts related to housing, employment, education, and public accommodation. Facilitated conciliations to settle disputes among parties. Conducted information sessions on civil rights throughout Cambridge.
- 2006-2009 Boston Medical Reserve Corps/Emergency Medical Technician
The Boston Medical Reserve Corps is a group of volunteers who are ready to respond should there be a public health emergency in Boston.
- 2007 Timmy Global Health, Dominican Republic/Medical Relief Volunteer
Helped establish temporary medical clinics along Haiti-Dominican Republic border; triaged patients, managed pharmacy, translated proper drug use and application.
- 2001-2005 Latino Youth Enrichment Team (LYET), New Haven, CT/Co-Director
Managed community center mentorship program and developed instructional methods for Latino youth ranging in age from 6 through 13.
