## Research Overview

Building on a decade and a half of domestic and international experience in clinical and public health informatics, my research focuses on leveraging human-centered artificial intelligence (AI) to advance health equity science. My work usually examines and applies methods such as machine learning, natural language processing, and spatiotemporal analysis in addition to traditional biostatistics and epidemiology. I am particularly interested in using and interrogating multimodal data sources and the vast toolbox that computational learning offers to better understand, improve, and facilitate study of health in populations and communities that are marginalized. Generally, my research can be grouped into four primary domains: (i) ethical and justice considerations in AI and clinical practice; (ii) promoting health data equity and creating new knowledge bases; (iii) elucidating health inequity and developing tools to facilitate further discovery; and (iv) enabling equitable learning health systems and precision public health.

## Education

Columbia University in the City of New York, New York, NY  
*Doctor of Philosophy* in Biomedical Informatics, Expected December 2024  
*Dissertation:* Leveraging Computational Methods to Advance Health Equity Science Through Evidence Synthesis, Strategic Monitoring, and Precision Public Health  
*Master of Philosophy* in Biomedical Informatics, 2023  
*Master of Arts* in Biomedical Informatics, 2021 (GPA: 4.0)  
Dissertation Committee: Noémie Elhadad (advisor), Suzanne Bakken, Karthik Natarajan  
Coursework included: Machine Learning for Healthcare, Symbolic AI in Healthcare, Data Science, Natural Language Processing, Computer Applications in Health Care, Intelligent Decision Systems

Beijing Language and Culture University, Beijing, China  
*Visiting Student*, Intensive Mandarin, 2019

Johns Hopkins Bloomberg School of Public Health, Baltimore, MD  
*Master of Applied Science* in Spatial Analysis for Public Health, 2019  
Coursework included: Biostatistics, Spatial Statistics, Epidemiology, Spatial Data Technologies

Harvard T.H. Chan School of Public Health, Boston, MA  
*Special Student*, International and Population Health, 2009-2011  
Coursework included: Immunology, Tuberculosis, Reproductive Health Issues, Survey Research Methods, Planning and Evaluation of Health Programs, Financing Health Care in Developing Countries

Yale University, New Haven, CT  
*Bachelor of Arts* in Sociology and History, 2005  
Coursework included: Elements of Computing, Current Issues in Biological Sciences, General Chemistry, Social Policy Analysis, Social Inequality, Portuguese for Spanish Speakers, Elementary Yoruba

## Postgraduate Training

|                 |  |                                   |   |
|-----------------|--|-----------------------------------|---|
| 08/2013-08/2019 | Predoctoral Research Fellow  | General Medicine and Primary Care | Brigham and Women's Hospital, Boston, MA                |
| 08/2013-10/2023 | Visiting Postgraduate Research Fellow  | Medicine                          | Harvard Medical School, Boston, MA                      |
| 09/2019-08/2022 | National Library of Medicine T15 Predoctoral Research Training Fellow  | Biomedical Informatics            | Columbia University Irving Medical Center, New York, NY |
| 09/2022-08/2024 | National Library of Medicine/ National Institute of Allergy and Infectious Diseases T15 Predoctoral Research Training Fellow | Biomedical Informatics            | Columbia University Irving Medical Center, New York, NY |

## Other Professional Positions

|           |   |  |
|-----------|---|--|
| 2000-2001 | Program Assistant                         | Yale International Affairs Council   |
| 2000-2001 | Library Clerk                             | Sterling Memorial Library, Yale University   |
| 2000-2001 | Reading Tutor                             | America Reads  |
| 2001-2002 | Client Advocate                           | Student Health Outreach (SHOut)  |
| 2003      | Paralegal                                 | Raymond B. Schwartzberg & Associates   |
| 2003-2004 | Editorial Assistant/Contributor           | Yale Medicine Magazine   |
| 2004      | Research Assistant                        | Department of Sociology, Yale University   |
| 2004-2005 | Client Outreach Officer                   | Advanced Strategies for Healthcare Access  |
| 2005-2006 | Teacher, English-as-a-Second-Language     | New York City Board of Education/New York City Teaching Fellows                      |
| 2006-2007 | Emergency Medical Technician              | Tufts Emergency Medical Services   |
| 2007-2008 | Research Assistant                        | Division of General Internal Medicine and Primary Care, BWH                          |
| 2008-2010 | Data, Training, and Education Coordinator | Harvard University/U.S. President's Emergency Plan for AIDS Relief (PEPFAR)          |
| 2008-2011 | Research Assistant (per diem)             | Division of General Internal Medicine and Primary Care, BWH                          |
| 2010-2012 | Data Quality Assurance Manager            | Harvard University/U.S. President's Emergency Plan for AIDS Relief (PEPFAR)          |
| 2012-2019 | Research Manager                          | Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital |

## Major Administrative Leadership Positions

### Local

|           |   |                |
|-----------|---|----------------|
| 2012-2019 | Network Manager, Brigham and Women's Primary Care Practice-Based Research Network | Brigham Health |
|-----------|---|----------------|

### National

|      |   |   |
|------|---|---|
| 2018 | Co-organizer, Queer Health Hackathon  | Tegan and Sara Foundation   |
| 2024 | Co-organizer, Using Artificial Intelligence to Better Understand Menopause (Workshop) | National Science Foundation (NSF)/National Institutes of Health (NIH) |

*International*

|      |   |   |
|------|---|---|
| 2023 | Co-organizer/ Author Mentorship Program<br>Sub-Chair, Machine Learning for Health<br>(ML4H) Symposium | Association for Health<br>Learning and Inference (AHLI) |
|------|---|---|

**Committee Service**

|              |  |                              |
|--------------|--|------------------------------|
| 2007–2008    | Association of Multicultural Members of<br>Partners Healthcare   | Partners Healthcare          |
| 2007–2008    |  | Member                       |
| 2007–2008    |  | Vice-Chair, BWH Chapter      |
| 2011–2019    | LGBTQ and Allies Employee Resource Group   | Brigham Health               |
| 2011–2019    |  | Member                       |
| 2014–2016    |  | Co-Chair                     |
| 2013–2014    | Partners Human Research Committee, Insight<br>Usability Working Group  | Partners Healthcare          |
| 2013–2014    |  | Member                       |
| 2013–2014    | Partners Enterprise Research Portal Working<br>Group   | Partners Healthcare          |
| 2013–2014    |  | Member                       |
| 2013–2015    | Partners eCare Sexual Orientation and Gender<br>Identity Working Group   | Partners Healthcare          |
| 2013–2015    |  | Founding Member              |
| 2013–2015    | Partners eCare Research Working Group  | Partners Healthcare          |
| 2013–2015    |  | Member                       |
| 2015–2016    | Equity and Diversity Council   | Brigham Health               |
| 2015–2016    |  | Founding Member              |
| 2015–2016    |  | Co-Chair, Data Working Group |
| 2015–2018    | Sexual Orientation and Gender Identity<br>Working Group  | Partners Healthcare          |
| 2015–2018    |  | Founding Member              |
| 2019–2021    | Electronic Health Record Phenotyping Working<br>Group  | Columbia University          |
| 2019–2021    |  | Member                       |

| 2012–2014    | AcademyHealth   |   |
| 2014–present | American Medical Informatics Association (AMIA)                   |   |
|              | 2014–present  | Abstract Reviewer, Annual Symposium                               |
|              | 2023  | Member, Diversity, Equity, and Inclusion Recruitment Subcommittee |
| 2017–present | Association for Computing Machinery (ACM)                         |   |
| 2019–present | New York Academy of Sciences                                      |   |
| 2020–present | Latinx in AI  |   |
| 2022–present | Association for Computational Linguistics (ACL)                   |   |
| 2022–present | Association for the Advancement of Artificial Intelligence (AAAI) |   |
| 2022–present | Machine Learning for Healthcare (MLHC)                            |   |
|              | 2022, 2023  | Submission Reviewer, Annual Meeting                               |

## Editorial Activities

### *Ad hoc Reviewer*

American Psychologist  
 Applied Clinical Informatics  
 Health Services Research  
 JAMA Network Open  
 JAMIA Open  
 Journal of Biomedical Informatics  
 Journal of General Internal Medicine  
 Journal of Medical Internet Research  
 Journal of the American Medical Informatics Association  
 Medical Care  
 Natural Language Engineering  
 Open Forum Infectious Diseases  
 The Joint Commission Journal on Quality and Patient Safety  
 Transactions of the Royal Society of Tropical Medicine & Hygiene

### *Other Editorial Roles*

2021–2023 Journal of the American Medical Informatics Association (JAMIA)  
 2021–2023, Student Editorial Board Member  
 2022–2023, JAMIA Journal Club Manager

## Report of Funded Projects

### *Funding Information*

#### **Past**

- 2007      Influenza in the Partners Primary Care Practice-Based Research Network  
Roche Laboratories, RLI 06001207  
Research Assistant (PI: Linder)  
Aim: To measure and evaluate the appropriateness of antiviral and antibiotic prescribing for patients being treated for influenza in primary care clinics.
- 2007–2008      Pharmacist Intervention to Decrease Medication Errors in Heart Disease Patients  
National Heart, Lung, and Blood Institute (NHLBI), R01HL089755  
Research Assistant (Site PI: Schnipper)  
Aim: To evaluate a literacy-focused program that provides pharmacist-led educational assistance at the time of hospital discharge to patients with heart disease.
- 2008–2012      President's Emergency Plan for AIDS Relief (PEPFAR)  
Health Resources and Services Administration (HRSA) U51HA02522  
Data Quality Assurance Manager/Data, Training, and Education Coordinator (PI: Kanki)  
A \$362 million grant to train health care workers, develop monitoring and evaluation systems, strengthen health care infrastructures, and collaborate with local hospitals and clinics in Nigeria, Botswana, and Tanzania that provide treatment for people living with HIV/AIDS.
- 2012–2014      Medical Malpractice and Patient Safety Protocol (PROMISES)  
Agency for Healthcare Research and Quality (AHRQ) 1R18HS019508-01  
Project Manager (PI: Schiff)  
Aim: To test the impact of quality improvement techniques to improve 3 high risk ambulatory malpractice areas: 1) medication management, 2) test ordering and results management 3) follow-up and referral management.
- 2012–2014      Use of Behavioral Economics to Improve Treatment of Acute Respiratory Infections  
National Institutes of Health/University of Southern California 1RC4AG039115-01  
Data Manager/Statistical Programmer (Site PI: Linder)  
Aim: To evaluate the use of behavioral economic concepts such as enhanced defaults, alternative options, and social norms to reduce inappropriate antibiotic prescribing for acute respiratory infections.
- 2013–2014      Acute Respiratory Infection Telephone Management Service  
Brigham and Women's Physicians Organization Care Redesign Incubator and Startup Program – Round 1 and Round 2  
Data Manager (PI: Linder)  
Aim: To develop, implement, and evaluate an acute respiratory infection telephone management service at one of the Brigham and Women's Primary Care Practices.
- 2013–2015      Patient Outcomes Associated with Year-End Departure of Resident Primary Care Physicians  
Support for Excellence in Educational Development (SEED) Grant, BWH  
Co-Investigator (PI: Solomon)  
Aim: To investigate whether acute care utilization is increased disproportionately among patients of graduating resident physicians compared to non-graduating residents.
- 2014      First Annual BWH DGIM Research Day  
BRI/ORC Microgrant Pilot Program  
Principal Investigator (\$1,000)  
Aim: To develop a BWH Division of General Internal Medicine and Primary Care retreat to showcase contributions of research assistants and promote their career development.

- 2014–2015 Are Physicians and Patients Adhering to the Published Guidelines for Fasting during Ramadan?  
Martin P. Solomon Award for Primary Care Scholarship, BWH  
Co-Investigator (PI: Ali)  
Aim: To measure differences in rates of health care utilization for Muslim patients just prior to, during, and after Ramadan.
- 2014–2016 Understanding and Preventing Diagnostic Pitfalls  
Risk Management Foundations of the Harvard Medical Institutions (CRICO)  
Project Director (PI: Schiff)  
Aim: To identify leading diagnostic pitfalls that pose safety and malpractice risks, then design and test the accuracy of electronic screens for these pitfalls in the electronic health record.
- 2014–2016 Evaluating Variation in Overactive Bladder Medication Use and Other Treatments  
Astellas Pharma US, Inc.  
Statistical Programmer (PI: Loughlin)  
Aim: To develop an electronic phenotype for overactive bladder, then characterize overactive bladder treatment, medication adherence, and outcomes.
- 2015–2017 Clinician-Patient Relationships: Boundaries, Barriers, Breakdowns  
Gold Foundation/Lucian Leape Family Foundation  
Project Director (PI: Schiff)  
Aim: To examine physician attitudes and practices related to caring acts that have been questioned as “inappropriate” or “unethical” crossing of professional boundaries.
- 2015–2018 Implementation of a Medication Reconciliation Protocol to Improve Patient Safety  
Agency for Healthcare Research and Quality (AHRQ) R18 HS 023757-01A1  
Project Manager/Statistical Programmer (PI: Schnipper)  
Aim: To widely disseminate, implement, and evaluate sustainable medication reconciliation interventions that improve patient safety during care transitions.
- 2016–2018 Electronic Medication Adherence Reporting and Feedback During Care Transitions (Smart Pillbox)  
Agency for Healthcare Research and Quality (AHRQ) R21 HS 024587-01  
Project Manager/Statistical Programmer (PI: Schnipper)  
Aim: To implement a smart pillbox intervention for patients discharged from the hospital to the community and to evaluate the effects of the intervention on post-discharge medication discrepancies, medication adherence, and chronic disease management.
- 2017–2018 Novel electronic health record phenotyping of LGBTQ intersectional identities and associated health disparities using natural language processing and machine learning  
Harvard Catalyst  
Co-Investigator (PI: Zhou)  
Aim: To develop methods using machine learning and natural language processing to identify sexual and gender minority (SGM) populations from electronic health records and characterize potential healthcare disparities associated with different segments of SGM populations.
- 2018–2019 A Multicenter Randomized Controlled Trial of Pharmacist-Directed Transitional Care to Reduce Post-Hospitalization Utilization  
National Institute on Aging (NIA) R01 AG 058911-01  
Project Manager (Site PI: Schnipper)  
Aim: To measure the impact of pharmacist-led discharge (PHARM-DC) interventions on post-discharge utilization within 30 days and identify patient sub-populations most likely to benefit from PHARM-DC.

- 2023-2024      Clinical and Translational Science Award  
National Center for Advancing Translational Sciences (NCATS) 3UL1TR001873-08S1  
Graduate Research Student (PI: Reilly)  
Aim: To investigate justice, equity, diversity and inclusion (JEDI) in ethical frameworks applied to research on artificial intelligence in digital health and create educational case studies for identifying ethical issues related to JEDI and discussing potential approaches to integrate JEDI goals.
- 2024-2026      Development and Evaluation of an Informatics-Based Approach to Reducing Disparities in Kidney Transplant Evaluation Completion in a Learning Health System  
Learning Health System and Health Justice Research and Training Award  
Co-Investigator (PI: Husain)  
Aim: To identify patients at high risk for delayed kidney pre-transplant clinical evaluation using machine learning, target them for enhanced monitoring and engagement, and provide direct support to mitigate roadblocks contributing to delays.

### *Projects Submitted for Funding*

- 2018      ARTificial Intelligence for the Study and Enhancement of Sexual and Gender Minority health  
NIH/NIMHD 1R21HD097292-01  
Co-investigator (PI: Zhou)  
Aim: The goals of the ARISE-SGM study were to leverage advances in artificial intelligence to address logistical challenges in obtaining representative samples of sexual and gender minority (SGM) populations and characterize comorbidity prevalence and potential health disparities associated with different segments of SGM populations.
- 2021      Financial Toxicity and Cancer Treatment: Examining Trends and Disparities via Causal Inference  
Robert Wood Johnson Foundation/AcademyHealth HD4A Award  
Co-Principal Investigator (PI: Elhadad)  
Aim: To apply machine learning, natural language processing, and causal inference methods to a large, longitudinal cohort to isolate factors contributing to financial toxicity following cancer diagnosis. Additionally, to identify and quantify disparities in clinical and catastrophic financial outcomes, enabling policymakers and providers to prioritize targeted interventions most likely to reduce financial toxicity and mitigate disparities in clinical outcomes.
- 2024      Development of a Learning Health System Community Characterization Dashboard  
Learning Health System and Health Justice Research and Training Award  
Collaborator (PI: Natarajan)  
Aim: To develop Equity Pulse, an interactive exploratory data analysis tool to facilitate a more systematic and justice-oriented approach to comprehensive, large-scale, continuous characterization of the health of patients and the surrounding area served by New York-Presbyterian Hospital.
- 2024      Development and Validation of a Novel Risk Prediction Model for HIV Viral Suppression Based on Sequential Patterns of Care in a Learning Health System  
Learning Health System and Health Justice Research and Training Award  
Co-Investigator (PI: Zucker)  
Aim: To leverage state-of-the-art machine learning and data mining techniques to identify subpopulations at differential risk for HIV viral load suppression and disparities based on sequential patterns of care.

### *Unfunded Current Projects*

- 2019-present    Gender-based Differences in Presentation and Treatment of Acute Myocardial Infarction  
Aim: To characterize gender-based differences in time-to-treatment based on sign or symptom documentation when presenting to the emergency department with acute myocardial infarction and its resulting impact on patient outcomes across the dimensions of gender, race, and age.
- 2020-present    Exploring Gender Disparities in Time to Diagnosis  
Aim: To characterize gender-based time-to-diagnosis disparities for over 100 diseases and explore how this affects diagnostic performance when evaluating gender-agnostic disease classifiers across increasing levels of diagnostic information for millions of patients.
- 2024-present    Development and Validation of an Electronic Screening Tool for Endometriosis  
Aim: To develop machine learning models to improve endometriosis screening. To date, our best performing models have proven capable of detecting cases up to 3 years prior to original diagnosis date with robust accuracy, precision, and recall.
- 2024-present    The Impact of Evolving Endometriosis Guidelines on Diagnosis and Observational Studies  
Aim: To investigate how shifts in guidelines for the diagnosis of endometriosis might impact observational health research related to the disease by comparing demographics and clinical histories across five endometriosis phenotypes involving laparoscopy, imaging, and symptoms.

## Report of Local Teaching and Training

### *Teaching of Students in Courses*

### *Mentored Trainees*

- 2024    Kemka Ihemelandu, Summer Program for Undergraduate Rising Stars (SPURS)  
Research Assistant, Columbia University (Undergraduate at Georgetown University)

*Local Invited Presentations*

No presentations below were sponsored by 3rd parties/outside entities.

- 2013 How Busy Clinicians Can Improve Care and Pursue Scholarship / Invited Workshop  
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2014 SQL-based Data Management and Manipulation / Invited Presentation  
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2014 Designing and Building Clinical Research Databases / Invited Presentation  
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2014 The LGBTQ Data Collection Gap: Sexual Orientation and Gender Identity in the EHR / Invited Presentation  
LGBTQ and Allies Employee Resource Group, Brigham Health
- 2017 Algorithmic Bias and Health Disparities / Invited Presentation  
Machine Learning Working Group, Partners HealthCare
- 2017 Improving and Leveraging Sexual Orientation and Gender Identity Demographics in Epic / Invited Presentation  
Sexual Orientation and Gender Identity Working Group, Partners HealthCare
- 2018 Documentation of Sexual Orientation and Gender Identity in the Electronic Health Record / Invited Presentation  
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2019 LGBTQ Health - Diversity, Culture, and Inclusion Series / Invited Presentation  
Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
- 2022 Mining the Health Disparities and Minority Health Bibliome / Invited Presentation  
Biomedical Informatics Seminar Series, Department of Biomedical Informatics, Columbia University
- 2023 Enabling a Learning Public Health System: Enhanced Surveillance of Sexually Transmitted Infections / Invited Presentation  
Division of Infectious Diseases, NewYork-Presbyterian Hospital (NYPH), New York, NY.
- 2023 Health Information Exchange Enables Enhanced STI Surveillance Using Electronic Health Record Data / Invited Presentation  
HIV Prevention Research Working Group, NYPH, New York, NY.
- 2023 Development and Validation of Multimodal Deep Learning Models to Identify Human Monkeypox in the Electronic Health Record / Invited Presentation  
HIV Prevention Research Working Group, NYPH, New York, NY.
- 2024 Elucidating Health Inequities and Research Gaps in HIV and Other Sexually Transmitted Infections Using Data Mining and a Large Language Model: A Computational Scoping Review / Invited Presentation  
HIV Prevention Research Working Group, NYPH, New York, NY.
- 2024 The Promise and Perils of Artificial Intelligence for Health Equity / Invited Presentation  
Artificial Intelligence Summer Course, Columbia University Double Discovery Program.

## Report of Regional, National, and International Invited Teaching and Presentations

No presentations below were sponsored by 3rd parties/outside entities.

### *Regional*

- 2016 Identifying and Understanding Malpractice-Prone Diagnostic Pitfalls / Invited Presentation  
Risk Management Foundation of the Harvard Medical Institutions Incorporated (RMF)  
CRICO Research Day  
Boston, MA
- 2018 High physician and clinic-level variation in documentation of sexual orientation and gender identity in the electronic health record / Plenary Session (Selected Oral Abstract)  
New England Science Symposium  
Boston, MA  
**Received the Ruth and William Silen Award, Third Prize**
- 2022 Mining the Health Disparities and Minority Health Bibliome / Invited Presentation  
Biomedical Informatics Colloquium, New York City College of Technology (City Tech)  
New York, NY
- 2023 Getting into Graduate School and Succeeding/ Invited Panelist  
New England Science Symposium, Biomedical Science Careers Program  
Boston, MA

### *National*

- 2014 Comparing Clinicians' Perception of Their Own and Their Peers' Antibiotic Prescribing to Actual Antibiotic Prescribing for Acute Respiratory Infections in Primary Care  
(Selected Oral Abstract)  
Society of General Internal Medicine Annual Meeting  
San Diego, CA  
**Received the Outstanding Quality and Patient Safety Oral Presentation Award**
- 2015 Advocacy and Implementation: Gathering SOGI Demographics in the Clinical Setting  
(Selected Oral Abstract)  
Gay and Lesbian Medical Association Annual Conference  
Portland, OR
- 2021 Differential Presentation and Delays in Treatment for Acute Myocardial Infarction Associated with Sex and Race/Ethnicity (Selected Oral Abstract)  
American Medical Informatics Association Annual Symposium  
San Diego, CA
- 2022 Mining the Health Disparities and Minority Health Bibliome: A Computational Scoping Review  
(Selected Oral Abstract)  
American Medical Informatics Association Annual Symposium  
Washington, DC  
**Spotlighted by AMIA for "demonstrating best practices in promoting diversity, equity, and inclusion through scholarly communications in biomedical informatics."**

- 2023 Enabling a Learning Public Health System: Enhanced Surveillance of Sexually Transmitted Infections (Selected Oral Abstract)  
American Medical Informatics Association Annual Symposium.  
New Orleans, LA
- 2023 Challenges, Opportunities, and Considerations: Promoting Inclusive Research in the Era of Big Data / Invited Presentation and Panelist  
American Medical Informatics Association Annual Symposium  
New Orleans, LA

### *International*

- 2009 Improving Understanding and Medication Adherence/ Invited Plenary Presentation  
HIV Training, AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Introduction to Data Management/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Critical Elements in Database Cleaning, a Checklist/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Basics of Programming and Scripting/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Monitoring data and Trouble-shooting/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Programming: Creating a Utility and Basics of Scripting/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Programming and Trouble-shooting Databases/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Cohort Analyses I: Using EHR Data/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria
- 2011 Cohort Analyses II: Using EHR Data/ Invited Seminar  
AIDS Prevention Initiative Nigeria Plus (APIN Plus)  
Abuja, Nigeria

- 2014 PBRN Organization and Governance to Promote Practice, Clinician, Researcher, and Patient Engagement / Selected Workshop  
North American Primary Care Research Group Practice-Based Research Network Conference  
Bethesda, MD, USA
- 2015 Gathering Sexual Orientation and Gender Identity Demographics in the Clinical Setting / Selected Workshop  
North American Primary Care Research Group Practice-Based Research Network Conference  
Bethesda, MD, USA
- 2023 Health Information Exchange Enables Enhanced STI Surveillance Using Electronic Health Record Data (Selected Oral Abstract)  
STI & HIV 2023 World Congress  
Chicago, IL, USA

## Report of Clinical Activities and Innovations

### *Past and Current Licensure and Board Certification*

- 2006 Certification, New York State Emergency Medical Technician (EMT-D)

## Report of Teaching and Education Innovations

- |   |  |
|---|--|
| Creation of a JEDI-AI Case Study Series (2023-2024) | Co-developed educational case studies focused on justice, ethics, diversity, and inclusion (JEDI) in the development and use of artificial intelligence (AI) approaches in digital health. |
|---|--|

## Report of Technological and Other Scientific Innovations

- |  |  |
|--|--|
| Electronic health record (EHR) adult quality improvement tool (2010) | Co-developed and evaluated a utility to extract information from data warehouse and generate measures based on 15 adult quality of care indicators at 33 Harvard PEPFAR sites in Nigeria. Module reviews continuity of care, drug therapy initiation, loss to follow-up, laboratory monitoring, disease screening based on clinical symptoms assessment, treatment failure, and treatment response.  |
| EHR pediatric quality improvement tool (2011)                        | Co-developed and evaluated a utility to extract information from data warehouse and generate measures based on 23 pediatric quality of care indicators at 33 Harvard PEPFAR sites in Nigeria. Programmed module to review continuity of care, drug therapy initiation, medication adherence, loss to follow-up, laboratory monitoring, disease screening based on clinical symptoms assessment or diagnostic evaluation, treatment failure, toxicity management, nutritional assessment, and treatment response. |

EHR data quality assessment tool, version 2.0 (2011)

Instituted major modifications to and evaluated a pre-existing EHR utility to incorporate expanded data quality indicators at 33 Harvard PEPFAR sites in Nigeria. With this utility, central and site-level data managers are able to better monitor and improve data completeness, validity, accuracy, and currency.

CovidWatcher (2020)

As part of a department-wide effort, my colleagues and I developed CovidWatcher, an app and online portal that surveyed users about COVID-19 exposure, symptoms, access to medical care, and impact on daily life. Data collected was used to track spread of COVID-19, giving citizens real-time information about hot spots and enabling health care officials to deploy resources where needed. <https://www.dbmi.columbia.edu/covidwatcher/>

Health Equity Research Assessment (HERA) (2021)

As a member of the Elhadad lab, I supported the Health Equity Research Assessment (HERA), a large-scale characterization conducted across Observational Health Data Science Informatics (OHDSI) sites with heterogeneous populations and insurance coverage, allowing for identification of persistent and generalizable trends in diagnosis differences. The HERA dashboard and visualizations can be used to download study data, further investigate health differences, and generate novel hypotheses. <https://data.ohdsi.org/HERACharacterization/>

C-REACT: Contextualized Race and Ethnicity Annotations for Clinical Text (2022)

As a member of the Elhadad lab, my colleagues and I curated the C-REACT dataset, a large publicly-available corpus of sentences from clinical notes manually annotated for information related to race and ethnicity (RE) This corpus contains two sets of gold-standard annotations for RE data. The first set contains granular RE-information such as patient country of origin. The second set of annotations contains RE labels manually assigned by clinicians. <https://physionet.org/content/race-ethnicity-clinical-text/>

HDMH Monitor (2022)

HDMH Monitor is an online article repository and interactive dashboard that leverages natural language processing and machine learning methods to support scientific discovery via automated archive, search, information synthesis, and data visualization of articles concerning health disparities and minority health (HDMH). <https://hdmhmonitor.dbmi.columbia.edu/>

## Report of Education of Patients and Service to the Community

### *Activities*

- 2001-2005 Latino Youth Enrichment Team (LYET), New Haven, CT/Co-Director  
Managed community center mentorship program and developed instructional methods for Latino youth ranging in age from 6 through 13.
- 2006-2016 Boston Medical Reserve Corps/Emergency Medical Technician  
The Boston Medical Reserve Corps is a group of volunteers who are ready to respond should there be a public health emergency in Boston.
- 2007 Timmy Global Health, Dominican Republic/Medical Relief Volunteer  
Helped establish temporary medical clinics along Haiti-Dominican Republic border; triaged patients, managed pharmacy, translated proper drug use and application.
- 2013-2016 Human Rights Commission, City of Cambridge/Commissioner, Vice Chair  
Adjudicated complaints of discrimination occurring in Cambridge, MA related to housing, employment, education, and public accommodation. Lobbied the state legislature on important policies such as pay equity, protections relative to domestic violence, and anti-discrimination legislation for sexual and gender minorities. Facilitated conciliations among parties. Conducted information sessions on civil rights.
- 2019 High School Scholars Program, American Medical Informatics Association/Mentor  
Supported high school students with research projects; reviewed their work and helped them practice scientific presentations; offered career advice and encouragement.
- 2020-present De La Salle Academy/Proctor  
Proctor annual entrance exam for only private, independent middle school in New York City for academically talented students from economically less advantaged families.

### *Educational Material for Patients and the Lay Community*

#### **Books, monographs, articles and presentations in other media**

- |      |  |           |  |
|------|--|-----------|--|
| 2012 | Harvard School of Public Health/AIDS Prevention Initiative in Nigeria: Reducing the Burden of AIDS U.S. President's Emergency Plan for AIDS Relief             | Co-author | Harvard PEPFAR Nigeria Program Report  |
| 2012 | Harvard School of Public Health/Management and Development for Health: Reducing the Burden of AIDS in Tanzania U.S. President's Emergency Plan for AIDS Relief | Co-author | Harvard PEPFAR Tanzania Program Report |
| 2012 | Botswana-Harvard AIDS Institute Partnership: Reducing the Burden of AIDS U.S. President's Emergency Plan for AIDS Relief                                       | Co-author | Harvard PEPFAR Botswana Program Report |

## Recognition

|      |   |                           |
|------|---|---------------------------|
| 2015 | Publicity for successful advocacy leading to routine collection of sexual orientation and gender identity demographics in the Mass General Brigham (formerly Partners Healthcare) EHR | Boston Magazine           |
| 2019 | Interviewed for "Machine Learning and Health Equity" episode to discuss leveraging AI in health equity research   | ThinkResearch Podcast     |
| 2019 | Featured in article "On the Margins" about research using natural language processing to study LGBTQ health   | Harvard Medicine Magazine |

## Report of Scholarship

*Peer reviewed publications in print or other media*

### Research Investigations

1. Linder JA, **Reyes Nieva H**, Blumentals WA. Antiviral and antibiotic prescribing for influenza in primary care. *J Gen Intern Med.* 2009 Apr; 24(4):504-10. PMID:19225847; PMCID:PMC2659164. doi:10.1007/s11606-009-0933-9.
2. Schiff G, Griswold P, Ellis BR, Puopolo AL, Brede N, **Reyes Nieva H**, Federico F, Leydon N, Ling J, Wachenheim D, Leape LL, Biondolillo M. Doing right by our patients when things go wrong in the ambulatory setting. *Jt Comm J Qual Patient Saf.* 2014 Feb; 40(2):91-6. PMID:24716332. doi:10.1016/s1553-7250(14)40011-4.
3. Linder JA, Doctor JN, Friedberg MW, **Reyes Nieva H**, Birks C, Meeker D, Fox CR. Time of day and the decision to prescribe antibiotics. *JAMA Intern Med.* 2014 Dec; 174(12):2029-31. PMID:25286067; PMCID:PMC4648561. doi:10.1001/jamainternmed.2014.5225.

### *Theses*

1. **Reyes Nieva, H.** Individual Development Accounts and Other Asset-based Approaches to Poverty Alleviation. Undergraduate Thesis, Yale University.  
**Received a Mellon Forum Undergraduate Research Award.**
2. **Reyes Nieva, H.** Spatiotemporal Modeling of Opioid Prescribing and Persistent Opioid Use in the Northeastern United States, 2000-2018. Master's Thesis, Johns Hopkins Bloomberg School of Public Health.
3. **Reyes Nieva, H.** Leveraging Computational Methods to Advance Health Equity Science Through Evidence Synthesis, Strategic Monitoring, and Precision Public Health. Doctoral Thesis, Columbia University.

### *Abstracts, Poster Presentations and Exhibits Presented at Professional Meetings*

Works resulting in publication or presented more than 5 years ago are not included below unless awarded special recognition.

## National

1. Boskey E, Tabaac A, Wigell R, Wolf K, Lage I, Landrum S, **Reyes Nieva H**, Bearnot B, Streed C. Using patterns of missing EHR data to identify care disparities in gender diverse patients. (selected oral abstract presented by Tabaac). APHA Annual Meeting and Expo. 10/2020.
2. Pang C, Chen R, **Reyes Nieva H**, Kalluri KS, Sun TY, Jiang X, Rodriguez VA, Ryan PB, Natarajan K. Characterization and Comparison of Embedding Algorithms for Phenotyping across a Network of Observational Databases. (selected oral abstract presented by Pang). American Medical Informatics Association Annual Symposium. 11/2020.
3. **Reyes Nieva H** and Elhadad N. Latent Topics and Trends in Health Disparities Literature. Poster presentation. National Library of Medicine Informatics Training Conference. 06/2021.
4. Sun TY, Chen J, **Reyes Nieva H**, Bear Don't Walk OJ IV, Altosaar J, Elhadad N. Gender Differences in Time to Diagnosis through Fairness and Time Variant Evaluation of EHR Data (selected oral abstract presented by Sun). American Medical Informatics Association Annual Symposium. San Diego, CA; 11/2021.
5. Sun T, Hardin J, **Reyes Nieva H**, Natarajan K, Cheng RF, Ryan P, Elhadad N. Large-scale Characterization of Gender Differences in Age at Diagnosis and Time to Diagnosis in Longitudinal Observational Health Data. National Institutes of Health (NIH) Office of Research on Women's Health (ORWH) Workshop on Gender and Health: Impacts of Structural Sexism, Gender Norms, Relational Power Dynamics, and Gender Inequities. (selected oral abstract presented by Elhadad). Virtual Event; 10/2022.
6. Acharya N, **Reyes Nieva H**, Natarajan K. Analyzing shifts in healthcare-seeking behavior among All of Us enrollees in the era of COVID-19. Poster Presentation. American Medical Informatics Association Annual Symposium. Washington, DC; 11/2022.
7. D'Avanzo P, Bosco J, Carnevale C, Meyers K, Theodore DA, **Reyes Nieva H**, Zucker J. "I Don't See Myself as a Gatekeeper": Doxy-PEP Knowledge, Attitudes and Practices Among Healthcare Providers in New York. Poster Presentation. STI Prevention. Atlanta, GA; 09/2024.
8. **Reyes Nieva H**, Zucker J, Elhadad N. Elucidating Health Inequities and Research Gaps in HIV and Other Sexually Transmitted Infections Using Data Mining and a Large Language Model: A Computational Scoping Review. Poster Presentation. STI Prevention. Atlanta, GA; 09/2024.

## International

1. Desai PM, Ostropolets A, Richter LR, **Reyes Nieva H**, Spotnitz M, Rodriguez VA, Sun TY, Natarajan K. Phenotype Development and Evaluation of Heart Failure: A Case Study in using Patient-Level Prediction to Improve Phenotype Validity. Poster presentation. OHDSI Global Symposium. 09/2021.
2. **Reyes Nieva H**, Zucker J, Tucker EG, McLean J, DeLaurentis C, Gunaratne S, Elhadad N. Development and Validation of Machine and Deep Learning Classifiers for Monkeypox. Poster Presentation. Symposium on Artificial Intelligence for Learning Health Systems (SAIL), Río Grande, Puerto Rico; 05/2023.
3. **Reyes Nieva H**, Kashyap A, Voss EA, Ostropolets A, Anand A, Ketenci M, DeFalco FJ, Natarajan K, Choi YS, Li Y, Allen MN, Guang S, Elhadad N. The Impact of Evolving Diagnostic Guidelines on Clinical Characterization of Endometriosis. Poster Presentation. OHDSI Global Symposium, New Brunswick, NJ; 10/2024.
